RAIL ROAD TELEGRAPHERS

CHAIRMAN OF THE ORDER HERE TO DISCUSS SALARY SITUATION

W. T. Brown, general chairman of the Order of Railway Telegraphers, of the Chicago, Rock Island & Pacific Railroad, Division No. 128, with headquarters at Whiting, Kansas, was in Ardmore Friday and Saturday on a visit over the system for the purpose of investigating the schedule of wages paid by the railroad company.

Mr. Brown's duty as general chairman of this division, is to prepare and maintain a schedule of salaries for railroad telegraphers on the system over which he has charge. His visit to this city was principally to invite the local operator to become a member of the railroad telegraphers union, and to get some idea as to the amount of salary paid the local operator, with a view to preparing a new schedule.

This schedule will be prepared on September 1, at a meeting to be held in Chicago, where the grievances of all members of the union will be adjusted. His visit to this city will in all probability result in an increase of salary for the local Rock Island telegrapher to \$75 per month.

Mr. Brown is of the opinion that the striking telegraphers have the best opportunities to win the present strike of any heretofore. They are better organized, he says, they will stick together, and they have succeeded in taking up the country to such an extent that the companies will have to do something soon.

Value of State fairs.

State fairs have long been a factor in stimulating agriculture and encouraging the farmers, stock raisers and fruit growers to better efforts.

The first State Fair of Oklahoma will be held at Oklahoma City from October 5th to 15th and the very best products from every county in the state will be on exhibition.

The State Fair is one of the farmer's outings, in which business is combined with pleasure and education with recreation. These fairs give him an opportunity to use the best animals that not merely the state but the nation affords. He has an opportunity of seeing the highest achievements of man in molding animal forms in various lines of utility. He can see the best draft horses and roadsters, and when tired of visiting other portions of the fair he can, if he chooses, go to the grand stand and witness the races between the fastest horses in the country. He can see the best crops of the season, and better than all, he can extend his acquaintance with the men who have grown these crops and this live stock.

We put in a special plea for the farmer's wife and sons and daughters. The farmer's wife has had a hard time of it this summer. She don't get very many outings anyhow. If she does go, it is to church or social gatherings at the home of some friend and possibly to the county fair. Why not encourage her this year and take in the state fair, and take the older boys and girls with

COLORED ASSOCIATION

ELECT NEW OFFICERS AND HEAR ADDRESSES FROM A FOREIGN MISSIONARY.

The second day's session of the Chickasaw Baptist Association was called to order by Moderator H. E. Harrington. After devotional exercises Rev. Hightower was introduced as the speaker of the morning. He preached a good spiritual sermon and much interest was manifested.

In the afternoon many good things were said and done. Moderator Harrington made his annual address in a few brief and choice remarks. His address demonstrated the fact in rapid and satisfactory manner, there being about five hundred additions reported this year. The rule was suspended and Moderator Harrington was re-elected for his fifteenth term.

Mrs. Josephine Straglin, a native of British Guiana, South America, was introduced. She is working as a missionary under the auspices of the National convention. She is a strong and forcible speaker and said many choice things which will be remembered by all who heard her. She is scholarly and comes to us as a representative of what our nikes will do together for foreign missions will do.

The night session was turned over to the Women's Home Mission society so as to have their sermon preached. They chose Rev. L. H. Hervey of Denton, Texas, to preach their sermon. He selected for his theme of discourse, "Lift up the people." Between one and two thousand people were present to hear the sermon. Rev. Hervey preached one of his characteristic sermons—one of those full of vim, spirit and vigor. It was one of those sermons which one was wont to hear in days already gone. One of those spiritual sermons, which lifts the soul from mortal things and gives it a glimpse of yonder immortal home.

The following officers were elected: Vice moderator, B. E. Givens; secretary, J. F. Kersh; corresponding secretary, W. H. Russell; treasurer, Chas. Ross; missionary, E. N. Gaines. The following members were elected as members of the trustee board of Daves Institute: H. E. Dearington, ex-officio, G. W. Hall, J. P. Kersh, E. N. Gaines, J. W. Perkins, J. B. Norwood, B. C. Combs, P. R. Neill. The association re-elected Prof. J. Oscar Spencer as president and financial agent without opposition. Great hopes are entertained for its success under his administration.

Notice.

Teachers of City Schools: All teachers elected to a place in Ardmore City Schools, not having a legal certificate, granted by the Board of Examiners thereof, and who are not excused because coming under the rule and regulation adopted by the Board of Trustees, which says, "All diplomas granted by State Normal schools and other reputable Normal schools, and those issued by reputable colleges and universities will be given credit in examination," will report at the High School building, in Ardmore, Indian Territory, Wednesday morning, August 28th, 1907, at 9 o'clock.

Respectfully, CHARLES EVANS, Superintendent City Schools.

WANTS JOINT DEBATE

JUDGE LITTLE OF SULPHUR ISSUES CHALLENGE TO MIKE GORMAN, REPUBLICAN.

Sulphur, I. T., Aug. 21.—The voters are looking forward to a hot time in the senatorial race in the 18th district. Judge Little of this city, democratic nominee for the state senate, has challenged Hon. Mike Gorman of Ardmore, his republican opponent, to a series of joint debates. Both aspirants are able men and warm numbers in debate. The following is Judge Little's challenge:

"Hon. Mike Gorman, Ardmore, I. T.—Dear Sir: As you are the nominee of the republican party for state senator from the 18th senatorial district, and as I deem it essential that the voters of the district be advised as to the policies for which our respective parties stand, I hereby challenge you to a series of joint debates to be held in each of the three counties, the times and places for speaking to be arranged immediately upon your acceptance. An immediate reply is expected. Yours truly, J. C. LITTLE.

WOULD AVOID CONGESTION

OF THE MOVEMENT OF THE COTTON CROP.

CONFERENCE TO BE HELD

In Galveston of the Compress Agents and Frisco System to Discuss the Situation and Remedy the Evil.

The railroad lines of the southwest are at this time busy devising ways and means to handle the cotton crop this season so as to if possible prevent delays in the return of cars at port points from compress points and thus save a general congestion of the yards along the lines at terminal points, by saving a considerable amount of shifting, and switching the loads.

The Frisco system has issued a call for a meeting of the compress agents and compress superintendents to be held at Galveston, Tex., Aug. 28 and 29 for the purpose of discussing the best plans for handling the movement of the crop.

From what can be learned as to the plans, the company will endeavor to agree to a certain method of loading the cotton at points of origin so as cotton intended for a certain foreign port will be, if possible, loaded in cars that are near together, and so as that the cars which contain cotton for that certain port may be switched to the side track, at the wharf of which that boat is anchored and loaded therein, and thus have those cars free to send back. The plan is to have solid cars of cotton intended for a certain port loaded together and thus save having to take out part of a car of cotton intended for one port and part for another port.

Generally during the fall of the year in the busiest season railroads are troubled with a congestion of the yards at the large terminal and transfer stations on account of the bad loading of freight in mixing up the shipments, but this year it is the intention of the railroads to as far as possible obviate this trouble and hence the call for the meeting to discuss the plans.

A visitor of noble birth was expected to arrive at a large country house in the north of England, and the daughter of the house, aged seven, was receiving final instructions from her mother.

"And now, dear," she said, "when the duke speaks to you do not forget always to say 'your grace'." Presently the great man arrived, and after greeting his host and hostess he said to the child, "Well, my dear, and what is your name?" The little girl solemnly closed her eyes and, with clasped hands, exclaimed, "For what we are about to resolve may we be truly thankful Amen."

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rockport, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Live Stock Market.
Ardmore Special.
Kansas City Stock Yards, Aug. 24.—Cattle receipts this week show a decrease as compared with last week, although the run in the quarantine division has been fairly liberal, but not as heavy as last week, and the market has held steady so far this week, and will close the week with no material change unless unusually heavy runs are received later in the week. There is an unusual demand for cows and calves; show an advance of 15 to 25 cents. Last week was the heaviest week's receipts of the year so far, 82,000 cattle, including 5,500 calves having been received. The market declined on all classes with the exception of choice beef grades which are steady. The market opened the week strong and active on all kinds and since then cows and stockers and feeders have regained part of the loss of last week. Run in the quarantine division today is 35 cars, market steady and active, in spite of a slow market on the native side. Top steers this week sold at \$4.65, top today \$4.45. Bulk of the steers sold at \$3.65 to \$4.50. Cows are in strong demand ranging from \$2.50 to \$3.25, calves \$4.00 to \$6.50, including all weights. A total of 6,000 cattle and 1,000 calves have been received in the quarantine division first four days this week as compared with 13,000 cattle and 1,200 calves last week. Lighter receipts are looked for next week in which event snappy markets will rule.

Light marketing of hogs continues, receipts for August so far showing a decrease of about twenty percent as compared with same period last year. In spite of the small run, the market has had a downward tendency, and prices have declined every day this week. However, buyers for shipment are on the market daily and

place the packers at a disadvantage in their efforts in lowering prices to some extent. Run today is 6,500, market 5 lower, top \$6.00, bulk of sales \$5.65 to \$5.90. Light weights bring top prices, while heavier range from \$5.70 to \$5.80.

Supply of sheep was moderate this week, but the market failed to advance any on the light receipts. Bulk of the stuff is range offerings and quality is not very good. Run today is only 400, market steady. Lambs range from \$6.50 to \$7.25, yearlings \$5.50 to \$6.00, wethers \$5.40 to \$5.60, and feeding grades ready sale at prices only a little below those paid for mutton. J. A. There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.
